What will the client receive?

- Between 80% and 90% of first choice of sheets (same colors have a better yield compared to others)
- Between 10% and 20% second choice sheets , these are cut into half sheets , in order to deliver matching first choice sheets
- {Waste} sheets. The off cut will not be delivered or invoiced

What will the client pay?

The client pays only the sheets that are received. The Eventual waste will not be delivered nor invoiced.

Delivery times:

- 10 to 15 days to produce the sample in our laboratory in Malan, Italy
- 3 to 4 weeks approximately for order production, starting from the confirmation of lab sample/order confirmation, excluding time needed for shipping order from factory in Milan, Italy

Shipping options from Milan Italy to South Africa:

- Sea Freight - 4 to 6 weeks
- Airfreight 10 to 15 days

Example:

Production of 30 sheets (minimum production batch for thickness from 3mm to 6mm)

- 24 to 27 sheets first choice in sheet size 2030mm x 3050mm
- 1 to 4 sheets first choice in sheet size 1525mm x 2030mm

The production could also give a result of 30 first choice quality sheets, and it's not possible to know the return before the completion of the production itself.
